Product highlights

High-purity copper
This copper conductor provides high accuracy in signal transfer with minimal resistance.

Nickel-plated connectors
Nickel-plated connectors establish a clean contact between the cable and connector for a reliable connection.

Colour-coded connectors
Colour-coded connections make it easy to install your cable into the correct inputs and outputs

Easy grip
This non-slip grip makes connecting your components easy and ergonomically comfortable.

Moulded plug
Moulded plugs ensure secure connections between components and offer extended durability.

Flexible PVC Jacket
Flexible PVC jacket provides protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Rubber strain relief
Rubber strain relief provides a secure yet flexible juncture between the cable and the plug.

Bare copper shielding
Bare copper shielding protects against signal loss.

Plug and play
Plug and play offers easy installation of components without time-consuming installations.
